CONNECTICUT, Northeast

CTZ002>003	Hartford - Tolland								
27	1800EST				0	0	60K		High Wind (EG50)
	2100EST								
High winds brought down trees, large limbs, and wires in Hartford and Tolland Counties. There were many reports of damage from greater Hartford to Bolton and Andover. Wind gusts were estimated to be as high as 60 mph.									

MASSACHUSETTS, Central and East

MAZ002>007-012>016-022	Western Franklin - Eastern Franklin - Northern Worcester - Western Middlesex - Western Essex - Eastern Essex - Southern Worcester - Western Norfolk - Southeast Middlesex - Suffolk - Eastern Norfolk - Barnstable								
15	1500EST				0	3	250K		High Wind (MG55)
	2100EST								
High winds brought down trees, large limbs, and power lines across much of the Bay State, cutting power to about 36,000 customers throughout the state, most of which were in the Merrimack Valley. Most of the wind damage occurred along the Route 2 corridor, from Franklin County across northern Worcester County, and into western Middlesex and Essex Counties									
Three injuries were directly attributed to the high winds. An Allston man was seriously injured when a large tree pinned him on the roof of a garage. In Haverhill, a 9-year-old boy was struck by a falling tree limb while playing outside. A lineman was also struck by a falling tree limb in Andover, but his injuries were not life-threatening									
Peak winds gusts between 50 and 55 mph were widely reported, but gusts as high as 63 mph were reported at Blue Hill Observatory in Milton and as high as 60 mph in Beverly and East Falmouth.									

MAZ016	Eastern Norfolk								
29	1100EST				0	0			High Wind (MG60)
	1300EST								
Winds gusted to 69 mph at the Blue Hill Observatory in Milton. No damage was reported.									

NEW HAMPSHIRE, Southern

NHZ011>012	Cheshire - Hillsborough								
15	1500EST				0	0	40K		High Wind (EG50)
	2100EST								
High winds brought down trees, large limbs, and wires throughout southwest New Hampshire. There were numerous reports of damage, and an estimated 5,000 customers were left without power in Cheshire and Hillsborough Counties. Peak winds of 45 to 55 mph were widely observed, but were strong enough to cause significant damage.

RHODE ISLAND

RIZ001

Northwest Providence

15	1500EST				0	0	15K		High Wind (EG50)
	2100EST								

High winds downed trees and large limbs across northern Rhode Island, causing scattered power outages. A large limb fell onto railroad tracks in Cumberland. Although peak winds only reach 45 to 55 mph, they were strong enough to cause damage.
